From the simplest repair procedure to the most complex, trust Chilton's Total Car Care to give you everything you need to do the job. Save time and money by doing it yourself, with the confidence only a Chilton Repair Manual can provide.

From dirt bikes and jet skis to weed wackers and snowblowers, machines powered by small gas engines have become a permanent—and loud—fixture in American culture. But fifty years of high-speed fun and pristine lawns have not come without cost. In the first comprehensive history of the small-bore engine and the technology it powers, Paul R. Josephson explores the political, environmental, and public health issues surrounding one of America's most dangerous pastimes. Each chapter tells the story of an ecosystem within the United States and the devices that wreak havoc on it—personal watercraft (PWCs) on inland lakes and rivers; all-terrain vehicles (ATVs) in deserts and forests; lawn mowers and leaf blowers in suburbia. In addition to environmental impacts, Josephson discusses the development and promotion of these technologies, the legal and regulatory efforts made to improve their safety and environmental soundness, and the role of owners' clubs in encouraging responsible operation. Synthesizing information from medical journals, recent environmental research, nongovernmental organizations, and manufacturers, Josephson's compelling history leads to one irrefutable conclusion: these machines cannot be operated without loss of life and loss of habitat.

From the # 1 New York Times—bestselling author of Black Hawk Down: The “ shocking ” story of the country ’ s unlikeliest drug kingpin (The Baltimore Sun). By the early 1980s, Larry Lavin had everything going for him. He was a bright, charismatic young man who rose from working-class roots to become a dentist with an Ivy League education and a thriving practice, and a beloved father with a well-respected family in one of Philadelphia ’ s most exclusive suburbs. But behind the fa ç ade of his success was a dark secret: Lavin was also the mastermind behind a cocaine empire that spread from Miami to Boston to New Mexico, catering to lawyers, stockbrokers, and other professionals, and generating an annual income of \$60 million for the good doctor. Now, Mark Bowden, a “ master of narrative journalism ” (The New York Times Book Review) tells the harrowing saga of Lavin ’ s rise and fall in “ a shocking American tragedy . . . [that] shoots straight from the hip ” (Pittsburgh Post-Gazette). “ An engrossing crime story and a compelling morality tale. ” —The Arizona Republic “ Has all the elements of a chilling suspense thriller . . . A smoothly crafted, exciting, can ’ t-put-it-down book. ” —The New Voice (Louisville)
