The washing machine is probably the most expensive appliance you have, and buying a new one tends to come off as a significant expense. The folks at Amana know of the troubles of the average household, which is probably why they manufacture a line of affordable, yet decent washers. When we say affordable, we aren't talking about a few cents. But they're still a bargain compared to that ...

old-growth forests, or durability and long-term value, homeowners and builders are looking for ways to ensure that their homes are healthy, safe, beautiful, and efficient. In these pages are descriptions and manufacturer contact information for more than 1,400 environmentally preferable products and materials. All phases of residential construction, from sitework to flooring to renewable energy, are covered. Products are grouped by function, and each chapter begins with a discussion of key environmental considerations and what to look for in a green product. Over 40 percent revised, this updated edition includes over 120 new products. Categories of products include: Sitework and landscaping Outdoor structures Decking Foundations, footers, and slabs Structural systems and components Sheathing Exterior finish and trim
