My three-year-old nephew, though, loves the illustrations in "Anansi Goes to Lunch" because he is learning to count, and he delights in counting Anansi's six arms--three in each sleeve! My nephew's theory on the arms (despite the fact the Anansi is supposed to be a spider) is that the character needs all those arms to hold all the food he wants to take at the lunch parties.

Anansi's eyes prove to be a little too big for his stomach in Bobby and Sherry Norfolk's entertaining and sprightly Anansi Goes to Lunch. With roots in African folklore, this charming tale humorously illustrates how Anansi becomes, quite literally, stretched too thin after shortsightedly accepting three lunch invitations at the same time.

The little girl's dad has just finished building a dam across the Saskatchewan River, and his new project is to build a highway through Toronto. In Saskatchewan, he would come home for lunch every day, but now he doesn't come until supper. The family used to love to look at the stars, and the northern lights dancing in the night sky.
