I — offer some examples of how a design can be used in context, but hardly any of my projects need a guide the size of some of these. Generally, the bigger the company, the greater the need, because ...

The NASA Graphics Standards Manual, by Richard Danne and Bruce Blackburn, is a futuristic vision for an agency at the cutting edge of science and exploration. Housed in a special anti-static package, the book features a foreword by Richard Danne, an essay by Christopher Bonanos, scans of the original manual (from Danne's personal copy), reproductions of the original NASA 35mm slide presentation, and scans of the Managers Guide, a follow-up booklet distributed by NASA.

In Logo Design Love, Irish graphic designer David Airey brings the best parts of his wildly popular blog of the same name to the printed page. Just as in the blog, David fills each page of this simple, modern-looking book with gorgeous logos and real world anecdotes that illustrate best practices for designing brand identity systems that last.

A revised new edition of the bestselling toolkit for creating, building, and maintaining a strong brand From research and analysis through brand strategy, design development through application design, and identity standards through launch and governance, Designing Brand Identity, Fourth Edition offers brand managers, marketers, and designers a proven, universal five-phase process for creating and implementing effective brand identity. Enriched by new case studies showcasing successful world-class brands, this Fourth Edition brings readers up to date with a detailed look at the latest trends in branding, including social networks, mobile devices, global markets, apps, video, and virtual brands. Features more than 30 all-new case studies showing best practices and world-class Updated to include more than 35 percent new material Offers a proven, universal five-phase process and methodology for creating and implementing effective brand identity

Creating a brand identity is a fascinating and complex challenge for the graphic designer. It requires practical design skills and creative drive as well as an understanding of marketing and consumer behaviour. This practical handbook is a comprehensive introduction to this multifaceted process. Exercises and examples highlight the key activities undertaken by designers to create a successful brand identity, including defining the audience, analyzing competitors, creating mood boards, naming brands, designing logos, presenting to clients, rebranding and launching the new identity. Case studies throughout the book are illustrated with brand identities from around the world, including a diverse range of industries — digital media, fashion, advertising, product design, packaging, retail and more.

Ideal for students of design, independent designers, and entrepreneurs who want to expand their understanding of effective design in business, Identity Designed is the definitive guide to visual branding. Written by best-selling writer and renowned designer David Airey, Identity Designed formalizes the process and the benefits of brand identity design and includes a substantial collection of high-caliber projects from a variety of the world's most talented design studios. You'll see the history and importance of branding, a contemporary assessment of best practices, and how there's always more than one way to exceed client expectations. You'll also learn a range of methods for conducting research, defining strategy, generating ideas, developing touchpoints, implementing style guides, and futureproofing your designs. Each identity case study is followed by a recap of key points. The book includes projects by Lantern, Base, Pharos, OCD, Rice Creative, Foreign Policy, Underline Studio, Fedoriv, Freytag Anderson, Bedow, Robot Food, Together Design, Believe in, Jack Renwick Studio, ico Design, and Lundgren+Lindqvist. Identity Designed is a must-have, not only for designers, but also for entrepreneurs who want to improve their work with a greater understanding of how good design is good business.

Create a strong brand DNA!and watch it grow These days, customers want to have a deeply felt connection to the brands behind the products they're purchasing, which means that if you're starting a business, a strong brand DNA has got to be part of your creative process from day one. And it needs to be more than just an abstract idea: to give your brand life!and a bigger chance of surviving against the competition!you need to have a standout launch strategy and a set plan for growing your brand in a noisy marketplace. In Launching & Building a Brand For Dummies, Amy Willis!who launched her first business at just 24-years-old and has been the brains behind four strong and buzzworthy brands!covers everything from crafting a powerful brand identity and planning that all-important launch to being prepared to scale up as you begin to take off. She reveals crucial lessons from her personal experience in launching five companies, as well as detailing case studies from some of the strongest brands out there, accompanied by insights and advice from successful founders and branding experts. Stand out on social media Create viral campaigns Build on Customer Loyalty and LongevityDeal with the competition Whether you're thinking of starting a business or are already building up your market share, memorable brand identity will be the key to!and Launching & Building a Brand For Dummies one of the secrets of!your future standout success.

Your brand is and should be unique. It should stand out from others in a similar business or service. What makes your brand so different? It's your unique promise and value that you provide to your customers and clients. But how do you communicate this to your potential network? Through branding. Like humans, brands have a character. Like us, they need to have a style, a dressing sense, and a style of communication to grab people's attention. In this book, we'll get into the depth of each of the brand assets from brand name, story, logo, colors, typography, tone of voice, imagery, iconography, illustrations to compiling them in a holy brand style guide. It'll be an exciting journey. If you're a brand strategist, marketer, brand agency team member, at a manager post, a business owner, or an entrepreneur looking to establish your business as a brand, this is for you. If you're a young design or business graduate struggling to understand the practical applications of your theory classes in Branding and Marketing, this is for you. If you're a 9-5 stuck employee at a stressful job and willing to set up your own business or brand but don't have the capital to invest in building your brand, this will help you construct it. In the last book, 'BYOB Building Your Own Brand', we talked about the first steps towards creating a brand strategy, value proposition statement, brand character, and the various types of brand logos. This book is a continuation of where we left in the last book. Although you can read it without going through the previous book, I would recommend you to read it too if you wish to gain a better foundation in brand building. Here we will understand what a particular brand asset is used for, how it needs to be created, where it should be used, and how to make it a successful brand asset that evokes a strong brand recall in the minds of your audience. All the chapters are supported by examples from brands all over the world. The last chapter focuses on compiling the valuable brand assets in the form of a style guide with guidelines, descriptions, information, standards, best practices, do's and don'ts, and instructions for anyone who will be involved in brand building exercises. A strong visual identity is the need for a modern brand to evolve in this digital era and a necessity for a legacy brand to continue growing business. Over 90% of businesses around the world today depend on highly aesthetical and meaningful visual communication. How do we achieve this? With all the visual and emotional clutter filling the digital space and no one really looking at your advertisements anymore? How do we attract people and hook them to your brand? We do it by providing them value. Value through an exclusive visual means of communication. Obviously, there's something particular about how your brand dresses up to perform in front of your audience. These accessories it wears are your brand's assets and, in this book, you'll discover how to make them.

George Orwell set out — to make political writing into an art! —, and to a wide extent this aim shaped the future of English literature — his descriptions of authoritarian regimes helped to form a new vocabulary that is fundamental to understanding totalitarianism. While 1984 and Animal Farm are amongst the most popular classic novels in the English language, this new series of Orwell's essays seeks to bring a wider selection of his writing on politics and literature to a new readership. In Politics and the English Language, the second in the Orwell's Essays series, Orwell takes aim at the language used in politics, which, he says, — is designed to make lies sound truthful and murder respectable, and to give an appearance of solidity to pure wind! —. In an age where the language used in politics is constantly under the microscope, Orwell's Politics and the English Language is just as relevant today, and gives the reader a vital understanding of the tactics at play. 'A writer who can — and must — be rediscovered with every age.' — Irish Times
