connections missed and made. What happens when you run into Death in a busy train station? (You know he's Death because when he smiles, your cell phone goes dead.) What if your lover falls in love with a tree? Should you be jealous? From the woman pursued by a band of bagpipers in full regalia to the artist who's built a seven-foot boat out of secondhand copies of *The Great Gatsby*, Smith's characters are offbeat, charming, sexy, and as wonderfully complex as life itself.

When Mr. Cheeseman and his three "smart, polite, and relatively odor-free" children journey to the not-so-distant past, they meet something utterly surprising--the alternate versions of themselves, in the final book of the series that includes *A Whole Nother Story* and *Another Whole Nother Story*.

A vitally alive and ever-surprising collection of stories from the MAN BOOKER PRIZE-SHORTLISTED and WOMEN'S PRIZE-WINNING author of *How to be both* and the critically acclaimed Seasonal quartet 'Bold and sensitive. Smith's prose is a joy' Independent 'Captures quiet epiphanies of the extraordinary in the mundane' Sunday Times 'These stories fizz with life' The Times Literary Supplement Individually lucid and luminous, these tales resonate subtly together. In examining the distances and connections between ourselves and others, expertly inching us closer to the bone, Ali Smith's storytelling has never seemed so necessary, so moving or so joyous.

She emerged as innocent as any newborn. The party of starbursts and sparkles came to a standstill. In awe, millions of heavenly beings paused. Shine Star, Princess of the Universe, was the most precious and rare of all creations. As an expression of perfect happiness, thus was the king's daughter born. A magical love story unfolds in Vikrant Malhotra's wondrous debut, *The Stories of Goom'pa: Book One*. Meet Goom'pa. He is a Poofy, a small furry creature who resides on Earth in a place called Palidon, on the edge of the Miron National Forest. His world is a quiet one-until he spies Shine Star, a glorious star in the sky and the daughter of Prime Ray, the king of the universe. Enchanted by her elegance, Goom'pa knows he is willing to do anything to win the love of this celestial beauty. As the two meet and fall in love, Shine Star's father worries about his only daughter. Exploiting that concern is the Star Lord, Rath, who wants nothing more than to wrestle control of the universe away from Prime Ray. Will Goom'pa and Shine Star find a way to be together? Or will Rath's evil plan doom them all?

The three Cheeseman children, their father, and their psychic dog are all on the run. From whom? Well the CIA, naturally. But also corporate agents #5, #29, and # 207, plus two international superspies -- one of whom happens to be a chimpanzee. They all want Dr. Cheeseman and his late wife's greatest invention-a machine with unspeakable powers-OK, I'll say it. It's a time machine. But it's not working right yet, so put all ideas of time travel out of your head. Instead, please enjoy this high stakes, high action, hijinx-filled chase. And the bizarre characters our Cheeseman friends will meet as they protect not just their parents' invention, but their mother's sacred memory. It's an adventure novel like no other. Oh yeah, and did we mention the entertaining, plot-exposition filled, unsolicited advice you'll receive along the way? So you didn't ask for it? Yeah, that's why it's unsolicited. *Unsolicited Advice #1: Read this book. Look for the second book in this series, Another Whole Nother Story-and keep an eye out for book three, coming next year!*

There's Amy and there's Ash. There's ice and there's fire. There's England and there's Scotland. Ali Smith evokes the twin spirits of time and place in an extraordinarily powerful first novel, which teases out the connections between people, the attractions, the ghostly repercussions. By turns funny, haunting and disconcertingly moving, *LIKE* soars across hidden borders between cultures, countries, families, friends and lovers. Subtle and complex, it confounds

expectations about fiction and truths. 'Ingenious, shimmering fiction, written with a poetic grace that subtly illuminates the tensions between hope and desire, between past and present' Scotland on Sunday

In this superb short fiction collection, Elmore Leonard, "the greatest crime writer of our time, perhaps ever" (New York Times Book Review), once again illustrates how the line between the law and the lawbreakers is not as firm as we might think. In the title story, the basis for the hit FX series Justified, U.S. Marshal Raylan Givens meets up with an old friend, but they're now on different sides of the law. Federal marshal Karen Sisco, from Out of Sight, returns in "Karen Makes Out," once again inadvertently mixing pleasure with business. In "When the Women Come Out to Dance," Mrs. Mahmood gets more than she bargains for when she conspires with her maid to end her unhappy marriage. These nine stories are the great Elmore Leonard at his vivid, hilarious, and unfailingly human best.

From the author of Exhalation, an award-winning short story collection that blends "absorbing storytelling with meditations on the universe, being, time and space ... raises questions about the nature of reality and what it is to be human" (The New York Times). Stories of Your Life and Others delivers dual delights of the very, very strange and the heartbreakingly familiar, often presenting characters who must confront sudden change—the inevitable rise of automatons or the appearance of aliens—with some sense of normalcy. With sharp intelligence and humor, Chiang examines what it means to be alive in a world marked by uncertainty, but also by beauty and wonder. An award-winning collection from one of today's most lauded writers, Stories of Your Life and Others is a contemporary classic. Includes "Story of Your Life"—the basis for the major motion picture Arrival

Home is where the heart is... Seven years after leaving town and the only girl he loved, Cooper still couldn't forget about Sophia. He had two loves. Music and the woman of his dreams. Coming back home proved that would always be true. But things have changed. Now he has to gain her trust again if he wants to make her all his. The question is, did he lose his chance the first time? Some things are hard to forget... Sophia tried to stop loving Cooper and failed miserably. Despite the way he'd abandoned her seven years earlier, she can't seem to stay away, even though trusting him doesn't prove easy. One careless night could change it all and the secret she carries may ruin any chance of them being together. They say life is all about taking chances. But when opportunities are lost and love comes knocking the second time around, lives are changed forever.
