Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. *Strengthening Forensic Science in the United States: A Path Forward* provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials,

enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

When children of color enter their classrooms each year, many often encounter low expectations, disconnection, and other barriers to their success. In *The Innocent Classroom*, Alexs Pate traces the roots of these disparities to pervasive negative stereotypes, which children are made aware of before they even walk through the school door. The cumulative weight of these stereotypes eventually takes shape as guilt, which inhibits students' engagement, learning, and relationships and hurts their prospects for the future. If guilt is the primary barrier for children of color in the classroom, then the solution, according to Pate, is to create an Innocent Classroom that neutralizes students' guilt and

restores their innocence. To do so, readers will embark on a relationship "construction project" in which they will deepen their understanding of how children of color are burdened with guilt; discover students' "good," or the motivation behind their behaviors, and develop strategic responses to that good; and nurture, protect, and advocate for students' innocence. Ultimately, students will reclaim their innocence and begin to make choices that will lead to their success. Teachers will renew their commitment to their students. And the current ineffective system can give way to one that reflects a more enlightened understanding of who our children are—and what they are capable of.
